

“Forged in Service. Built for the Mission.”

Veteran-owned GEOINT and program-management consulting for the Department of Defense and Intelligence Community in the National Capital Region — foundation-grade geospatial truth with audit-ready governance.

CORE COMPETENCIES

GEOINT analysis & production — imagery analysis, geospatial data management, terrain and site analysis, target-development support, and GEOINT training and curriculum development.

Intelligence program management — cleared program and staff support, collection-management advisory, and J2/G2/A2 analytical augmentation.

Executive & human-capital support — senior-leader decision support, personnel program management, HR policy advisory, and leadership-development design.

Field land-intelligence services — UAS-based mapping on NDAA / Blue-UAS-compliant platforms, GNSS survey support, and corridor and site documentation.

DIFFERENTIATORS

- ▶ **24 years of documented U.S. Air Force service** in GEOINT and program management — verifiable past performance across operational and combat environments (details furnished to contracting officers on request).
- ▶ **Clearance continuity** from continuous active-duty service; level available under NDA to qualified contracting officers.
- ▶ **NDAA / American Security Drone Act-compliant collection stack** — federal-eligible from day one.
- ▶ **Owner-operated** — the analyst on the contract is the principal: zero bench risk, direct accountability.
- ▶ **DMV-based** — Pentagon, NGA Springfield, DISA, Walter Reed, and VA Central Office all within commuting distance for on-site delivery.

TARGET AGENCIES & CONTRACT VEHICLES

Priority agencies: Department of Veterans Affairs (Vets First set-aside / sole-source priority), NGA, DIA, DISA, SOCOM, DHS, and Army INSCOM / 16th AF.

Vehicles in pursuit: SDVOSB set-asides via SAM.gov; teaming / subcontract with established GEOINT primes; GSA MAS 541611 (Month 9 target); SeaPort N×G.
